

Borum Highway, Cold Paint

Borum® Master 3000 C

Borum® Master 3000 C is a Borum Highway model with cold paint equipment

Cold paint equipment:

Cold paint pressure tank

440 L pressurised tank with optional mounting: lengthwise or transversely with the machine axis.

Alternatively

2x440 L tanks can be mounted transversely on the axis.

Stainless tank (option)

As an option the cold paint equipment can be delivered with a pressurised material tank and filters in stainless steel for water and ammonium based paints.

Agitator transmission

Hydraulic transmission with motor, shaft, safety valve and on/off valve.

Cleaning system

10 L pressure solvent tank for cleaning of hoses and paint guns.

Paint filter

Filter with cut-off valve for easy maintenance.

Retainer

Sliding retainer frame, upon which 1-3 paint guns and 1-3 bead guns are attached. Easy slideable from side to side for an optimal working position. Ground distance is maintained by retainer wheel to ensure a constant road marking width.

Retainer lifting system

Lifting of retainer from operators seat. Pneumatic cylinder, foundation and pneumatic solenoid valve.

BM C6 cold paint gun

Automatic high-performance spray gun. 6 mm nozzle set for water based, solvent based and high solid paints. Possibility to apply lines in widths from 8-100 cm depending of the number of guns.

Please refer to data sheet on guns [Guns and bead guns](#)

Bead gun system

Please refer to data sheet on guns [Guns and bead guns](#)

Dimensions + weight

L : 5350 mm.
W : 1300 mm + equipment.
H : 2250 mm
incl. rotating light.
Weight: From 2600 up to 3800 kg.

Options:

Wide retainer for airport marking

Retainer for mounting of 5 paint and bead guns.

Hand paint gun for cold paint BM C5

Modification rights reserved.
